

PRIORITY PRAYER REQUESTS
March 28, 2008

1. Please pray for a building permit for the addition of the third floor dormitory. We have waited for several months now. The building commission has not met for 3 months to consider any request. This has held us back in starting the project. We want to finish before school starts in September. **PRAISE! THE BUILDING PERMIT WAS ISSUED!**
2. Please pray for the remaining funding for our building project. We are currently \$24,000 short of our needs. We praise the Lord for the \$12,000 that has come in during the last two months.
3. Please pray for Gjergj, one of our students, who is currently without work. He has a wife and a two year old daughter to support. Coming to school every other week and working every other week is difficult in this economy.
4. Please pray for more students to come to ABI this September when we begin the new year.
